

The Fourth Grade would like to purchase Hippo Rollers for families in Africa. These families need them because water is difficult to get, and they often have to walk many miles only to get 20 liters of water. With the Hippo Roller, families in Africa can roll or push large amounts of water back to their homes. People need water for many of their personal needs like: showering, cleaning clothes, cooking, and drinking. The fourth grade would like to assist families to have easier access to water and to be happy and healthy.
